

About PrinBill

PrinBill was initiated to bring Principia's billing procedures into compliance with Payment Card Industry (PCI) requirements. At the same time, the implementation of secure online bill access and payment provides additional features and benefits to Principia's customer community.

Using technology services provided by TouchNet Information Systems, Inc., Principia's PrinBill gives our customers full access and control of their billing statements and payments in a secure, easy-to-use, online environment and ensures that Principia's procedures are fully PCI compliant.
